

CUSTOMER SECURITY REVIEW SPRINT

Send us the security questionnaire holding up your deal.

A bounded review that helps your team prepare a supported response for approval - with evidence references, qualifications, scope limits and unresolved items kept visible.

YOUR SITUATION

- A customer or procurement team has sent a security questionnaire.
- Answers and evidence are scattered across people, systems and old documents.
- The review is delaying a deal or consuming senior technical time.

WHAT WITNESSOPS DOES

We structure the questionnaire and map available evidence to material answers. We draft supported responses and separate qualifications, open items and unknowns.

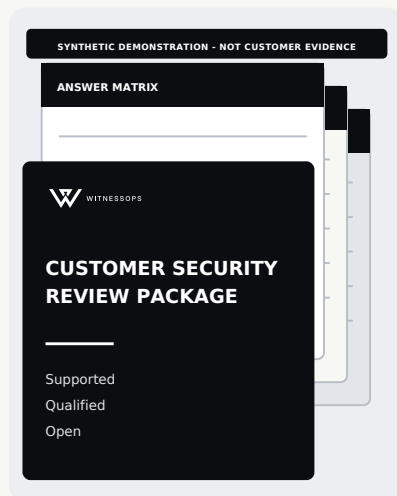

WHAT YOU RECEIVE

- Response draft for your review and approval.
- Evidence reference list.
- Qualification and open-item list.
- Scope and limitations summary.
- Buyer-facing cover note.
- Clear record of the bounded work performed.

PRICE & TIMING

From €1,600 after a non-secret fit check.

Three working days after scope, owners and required evidence access are confirmed.

GOOD FIT

- One live questionnaire and one product.
- An authorised contact and relevant evidence access.
- Enough time for a responsible review.

NOT THIS SERVICE

- Certification, legal advice or penetration testing.
- Invented evidence or unsupported “yes” answers.
- A guarantee that the buyer will accept the response.
